

M A T T L A N G T O N

SUMMARY

I am a multimedia designer/finished artist with skills in both print and digital media looking to break into the post-production industry. My graphic design experience includes corporate branding, interface design and promotional design. As a freelance designer I have created brands for Shadowfax Wines, Momu Designs and Langton's Fine Wines. In 2004 I completed a Bachelor of Multimedia Design at Swinburne University of Technology Melbourne. Proficient in the use of PC's since the days of DOS and a Mac user for the past 9 years. I work extensively with the Adobe Creative Suite as well as many other industry related programs. I am quick to adapt to new software demands and enjoy the learning experience of working with new products.

EXPERIENCE
